

International Leader

Description

About L'Arche

L'Arche is a worldwide movement of 160 communities in 36 countries where people with and without intellectual disabilities share life and contribute to a more human society. L'Arche International is the Federation unifying all these communities within a joint mission.

The Federation is organised by country, some with a national structure when the number of communities is high enough. The Leadership Team of L'Arche International gathers the National Leaders of the four countries with the highest number of communities (L'Arche France, L'Arche UK, L'Arche Canada, L'Arche USA) and the three International Delegates who supervise the communities spread across Europe, Middle East, Asia-Pacific, Africa and Central & South America.

The team of L'Arche International represents around 50 employees, half of them being in direct support and oversight of L'Arche communities around the world, the other half being members of the International support team (finance, HR, communications, administration, fundraising, evaluation and learning, training, etc.).

About the Role

The new International Leader, in close collaboration with the Vice International Leader, will lead at a time when a focus on strategic clarity, building trusting and effective working relationships, and a critical review of the existing structures of the Federation will be essential.

The International Leader, with the Vice International Leader, leads the Federation and has authority over the mission of L'Arche. They call for the Federation to live and grow per the Charter of the Communities of L'Arche and the Identity and Mission of L'Arche and to adapt to an ever-changing world.

The International Leader fosters unity in the Federation and leads the implementation of the Mandate of the Federation, as approved by the Federation Assembly. The International Leader represents the Federation at the international level, ensures the proper functioning and development of the Federation and that all appropriate policies, processes and procedures are in place and followed. The International Leader and Vice International Leader participate in the selection process for National Leaders and Board Chairs in the four confirmed countries. They lead the selection of International Delegates and Envoys and supervise the financial management of the Federation.

Purpose of the Role

The main missions of the International Leader are to:

- provide leadership for the mandate of the Federation, translating the objectives into a strategic action plan for implementation;
- provide support to countries and communities in fundraising, programme quality, and crisis management;
- promote unity by building and articulating a vision for the Federation;
- call the Federation to live and grow following the Identity and Mission Statements and the Charter of L'Arche;
- represent L'Arche in international forums to grow public awareness of the mission of L'Arche and to grow networks of support;
- lead the international leadership team and the extended leadership team;
- supervise or oversee the supervision of the international support team.
