Director – The Sphere Project

Description

About Sphere

[The Sphere Project](#) is a voluntary initiative that brings a wide range of humanitarian agencies together around a common aim – to improve the quality of humanitarian assistance and the accountability of humanitarian actors to their constituents, donors and affected populations.

The Sphere Handbook, Humanitarian Charter and Minimum Standards in Humanitarian Response, is one of the most widely known and internationally recognized sets of common principles and universal minimum standards in life-saving areas of humanitarian response.

Established in 1997 and governed by a Board composed of representatives of global networks of humanitarian agencies, the Sphere Project today is a vibrant community of humanitarian response practitioners.

Sphere is at an exciting time in its trajectory. Sphere's new vision and strategy (Sphere 2020) aims to transform the project into a more inclusive and vibrant network of humanitarian standard setting initiatives. This transformation is expected to be completed by strengthening the relationship with other humanitarian standards initiatives, including current Sphere companion standards such as INEE, CPMS, MERS and LEGS.
